

X VOTE

**to Protect Ontario's
Farms, Forests
& Wetlands**

Hwy 413 threatens Ontario's farms, forests and wetlands.

But, we have an opportunity to protect the Ontario we love!

A PROVINCIAL ELECTION HAS BEEN CALLED FOR FEBRUARY 27.

Here are some key facts and questions to share with your local candidates when they come to your door.

- X** Hwy 413 will cost Ontarians over \$10 billion, while rich sprawl developers make a profit.
- X** The hwy would save drivers less than 1 minute per trip.
- X** Hwy 413 will plow through the Greenbelt, contaminate the Humber and Credit Rivers and threaten 29 federally-identified species at risk.
- X** The hwy will pave over 2,000 acres of prime farmland and encourage mass amounts of sprawl development, threatening our food security.
- X** Decision-makers should subsidize Hwy 407 for trucks to reduce traffic on Hwy 401. This will cost \$6 billion less than constructing Hwy 413.
- X** Will your party commit to cancelling Hwy 413?
