LIAISON STRATÉGIES

CLIMATE & ENERGY SURVEY

Ontario riding study

Master report • 12 federal ridings

RESULTS

Fieldwork: September 8–12, 2026

Prepared for Environmental Defence

EXECUTIVE SUMMARY

Pipeline funding and environmental rollbacks reduce Liberal support

In every riding, at least half of Liberal voters say support for taxpayer-funded pipeline construction would make them less likely to support their MP.

01

50–59% less likely to support their MP

Range among Liberal voters across the 12 ridings if their MP supports taxpayer funding for another oil pipeline.

02

40–53% less likely to vote Liberal

Range among Liberal voters if the federal government approves major projects before assessing their environmental impacts.

03

63–80% oppose fossil fuel subsidies

Range among Liberal voters opposed to continued federal subsidies to oil and gas companies.

METHODOLOGY

Study design and reporting bases

STUDY ELEMENT	APPROACH
Coverage	12 selected federal ridings in Ontario
Completed interviews	6,112 total; 505–515 per riding
Method	IVR telephone interviews; landline and cellular random digit dialling
Weighting	Weighted to demographic targets
Fieldwork	September 8–12, 2026
Questionnaire	11 substantive questions; English only
Crosstabs	Age, gender and federal vote intention
Rounding	Whole percentages; combined figures sum the displayed rounded components

There's no tougher race than an election campaign. Shifting headlines, commentary on leadership debates, and millions of voters changing their minds right up to the last minute. In the most recent 2025 elections, the accuracy of Liaison's polls ranked 1st provincially and 2nd federally. Next race, who knows? There's always room to improve. **Even at Liaison.**
